Dear Tom;

I just wanted to personally thank you for encouraging me to try your Roadmap to Success. I must say, at first I was reluctant to give it a try. However, I did purchase it and I want to tell you that it was worth the investment many times over!

We have used your systems for the following:

1. Profit Expense Controls
2. Organizational Charts
3. An Employee Handbook
4. Various Sales Materials

This is just to name a few of the tools that we have used. It takes a while to implement everything and to incur changes with our policies and procedures. We still have many things that we plan to do. I'm sure that we could have made up some of the forms or find some of the procedures in management books ourselves – but who has the time! I know that it was much easier for me to find it all right there on your disk and the books that you provided me.

Thanks for making Finyl Vinyl Inc. a better and more profitable company!

Sincerely,

Don Barlow  
President  
Finyl Vinyl Inc.
